ABOUT US

What makes us One Industrial

Based in Singapore, One Industrial is dedicated to enhancing operational efficiency for businesses by providing industrial automation spare parts. We specialize in sourcing for discontinued or obsolete parts to minimize interruptions in production processes. Acknowledging the swift rate of obsolescence in our industry, we are able to locate these hard-to-find parts via our trusted global partner network, enabling us to provide critical MRO spares within 24 hours to 14 days, ultimately boosting production globally.

PROBLEM

What are the current hardships many face in the industry?

Tackling the Issue of sourcing Obsolete Electronic Components in the industrial sector. What are obsolete electronic components?

Obsolete electronic components are parts that are no longer being manufactured or sold by their original manufacturer

Our list of **PRODUCTS**

- PLCs
- Encoders & Motors
- Soft Starters
- Components
- PCBs
- Panels
- HMI
- Invertors
- Transformers
- VFDs & VSDs
- Circuit Breakers
- Cables

CLIENT REVIEWS

See what our client has
to say about us!

“

Sree is a very professional talent in the field of automation industry. My client recommended him to me, and I look forward to the opportunity to collaborate!

”

Sree has a broad knowledge of automation components and is willing to help where possible

Excellent customer service, Sree Sangeeth response to my email very fast, and also provide all the information I need to make put through my order without any hassle. Sree deserve 5 stars. Thank you, Sree your excellent customer service support.
